SUMMARY

I am a passionate full-stack web developer, and have knowledge of various front-end and back-end technologies with multiple internship experiences in the past. My objective is to apply these skills to create scalable, robust, and intuitive software products for the organization and the technology industry as a whole. I am currently seeking an entry-level job opportunity for a Software / Frontend Developer role.

EDUCATION

B. Tech - Computer Science Engineering - AI ML, SRM Institute of Science and Technology, Chennai   *May 2019 – May 2023*
- **SRMJEEE 2019 Scholarship Holder**, Secured **9.84 / 10 GPA** up till 3rd year.
- Managed Techno-Management fest of campus to increase footfall by 50+, **team lead of Microsoft,** and **Mozilla** campus clubs.

Senior Secondary - Sri Chaitanya Techno School, Bangalore   *Jun 2018 – May 2019*
- CBSE Board - PCM Aggregate Class 12 - 86%

Higher Secondary - Ryan International School, Bangalore   *Jun 2016 – May 2017*
- ICSE Board - Class 10 - 94.2%, **100% scorer in Mathematics**

EXPERIENCE

1. **Frontend Engineering Intern - Atlan -** *Remote*   *Aug 2022 – Nov 2022*
   - Developed features on the B2B SaaS product to solve customer requirements like Markdown support in product, enriched user analytics data to drive context-based product decisions, and UI improvements **impacting over 100+ customers** using Atlan product.
   - Resolved **over 40+ Quality Assurance tickets** entailing UI/UX bug fixes and improvements to achieve stability in the product; used industry-level Vue.js, TailwindCSS, AntDesign, and Typescript.

2. **Technology Intern - Unifiers Social Ventures Pvt. Ltd. -** *Remote*   *Jan 2022 – Aug 2022*
   - Developed features on SkillsTrainer.in - World's Largest Vocational Skilling and Certification Portal - **over 1.2 Million users worldwide.**
   - Developed revamped LMS, Jobs, and Scholarship portal for SkillsTrainer to **increase user base and customer outreach by over 20%** of the existing user base. Effectively managed backend tasks as well when needed; used React.js, TailwindCSS, GraphQL, and SQL (Hasura).

3. **Summer Intern - Fiserv -** *Bangalore, India*   *Jun 2022 – Jul 2022*
   - Built *FinTech* apps with Fiserv – a **Fortune 500 company. Migrated the entire frontend UI** from ASP.NET to React.js and Vanilla CSS for Real-Time Payment Network (RTPN) portal used by Fiserv USA and India, which **improved page load time** by a stunning **10 seconds**.
   - Led and coordinated work distribution successfully amongst teammates for **completing project before the deadline**; used React.js, CSS.

4. **Technology Intern - Krate -** *Remote*   *Feb 2021 – May 2022*
   - Built Kuddle.in - For all things parenting and baby care under one roof. Developed responsive, multi-platform e-commerce website frontend from scratch to retail organization goods and services in India **catering to over 25,000+ page visits** each month.
   - Developed CRM, Vendor Management System portal's frontend from scratch to managing customer interaction with the organization; used HTML5, CSS3, GraphQL, Next.js, and TailwindCSS.

SKILLS

- **Web Development** – HTML, CSS, TailwindCSS, Bootstrap, React.js, Next.js, Vue.js, AntDesign, Node.js, Express.js, REST API, GraphQL, Firebase, MongoDB, MySQL
- **Languages** – Javascript, Typescript, Python, C++, C, Java, Golang
- **Other Skills** – Git, Flask, OpenCV, Jest, JQuery, Jira, Figma, Hasura, AWS

PROJECTS

1. **Links – Single Link. For All Your Links**   *Feb 2021 – Aug 2021*

Web app to manage multiple links with just a single link. **Build your links portfolio absolutely free**. Powered by KZILLA.XYZ URL shortener, provides **valuable analytics** like the number of views, clicks, city of highest traction, etc. of each link to the user. Open Source Project.
Tech stack: Next.js, Typescript, TailwindCSS, MongoDB, Node.js

2. **StudEaz – Browser Extension to download Google Classroom files**   *Nov 2020 – Jan 2021*

Browser extension that helps students download multiple files from Google Classroom at once with no hassle. Available on Chrome, Firefox, and Edge Extension Stores. **Over 100+ downloads,** and **featured on the productivity section in Chrome Web Store**. Open Source Project.
Tech stack: HTML, CSS, Javascript

3. **CLIK – Protect and store your API keys and secret tokens**   *Aug 2020 – Oct 2020*

CLI-based tool to help developers store and share API keys safely in an encrypted form. The encrypted JSON files can be uploaded to VSC repositories, and **a**ccessed only by a decryption key provided by the tool, thus providing selective access to the secret tokens. **Over 50+ downloads** on pypi.org, **received positive feedback** from **over 50+ avid users** on the college campus. Open Source Project.
Tech Stack: Python3

CO-CURRICULAR

- **Member** – *Microsoft Learn Student Ambassador Program*
- **Top 20 (Semifinalist)** – **Hac'KP 2020 Hackathon** – *Kerala Police Cyberdome*
- **Top 5 (Finalist)** – **HackChennai 2020 Hackathon** – *HackerEarth, Chennai*
- **AWS Cloud Foundation Course** – Badge Received with Distinction
