PROFESSIONAL EXPERIENCE

ATLAN **Remote**
Oct 2024 - Present
Software Engineer 2 - Website & Brand

- Reduced campaign go-live from **4 days to under 5 minutes** across **500+ pages** by architecting an AI-native CMS with a self-serve content model and clear information architecture that let non-engineering teams launch and iterate without developers.
- Shipped Atlan's **new design language animated homepage** and its Analyst Hub with **near-zero hand-written code**, with A/B test experiments live in ~2 hours, by pairing Cursor and Claude Sonnet 4.6
- Delivered the team's **first human-out-of-the-loop page system** by taking custom skill from PoC to production, an orchestrator skill that builds landing pages fully autonomously, plus custom skill for self-serve builds.
- **Cut LLM token usage ~10x and removed manual ticket triage** by leading the Cursor → Claude Code migration and building WebWizard, a Slack-triggered n8n agent that auto-files Jira issues and dispatches Cursor cloud agents.
- Took design-to-ship from multi-day cycles to same-day by building a Figma → code pipeline using Figma AI and coding agents (Cursor, Claude Code, Copilot) that outputs **~90% code-accurate components**, each validated against UX specs and acceptance criteria before merge.
- Scaled on-brand, usability-consistent UI across the entire team by **adopting new Design System via Claude** and configuring Claude Design to produce on-system interfaces without Figma.

BAJAJ FINSERV **Pune, India**
Jul 2023 - Oct 2024
Software Engineer
BYTE Intern **Jan 2023 - June 2023**

- **Sped up page loads 50%** by leading the Bannerization project to serve product banners across the entire web app with zero frontend API calls.
- **Streamlined 20+ user journeys** on bajajfinserv.in by co-leading an SSO overhaul on a novel Solid.js + AEM architecture.
- **Lifted Core Web Vitals 25%** by re-architecting rendering and load paths, improving load times and growing user traffic.
- **Halved page go-live time** for the content-ops team by building an internal React + AEM publishing dashboard that took engineering out of the loop.

EARLIER EXPERIENCE

- **Atlan - Frontend Engineering Intern (Aug 2022 - Nov 2022)**: Delivered customer-facing features for 100+ B2B SaaS customers and cleared 40+ QA tickets.
- **Fiserv - Summer Intern (Jun 2022 - Jul 2022)**: Migrated the Real Time Payment Network portal UI from ASP.NET to React, cutting load time ~10s and delivering a month ahead of schedule.
- **Unifiers Social Ventures - Technology Intern (Jan 2022 - Aug 2022)**: Rebuilt the LMS, Jobs, and Scholarship portals on SkillsTrainer.in (1.2M users), growing the user base by 20%.
- **Krate - Technology Intern (Feb 2021 - May 2022)**: Built the Kuddle.in storefront (Next.js, 25K+ monthly visits) and a CRM / vendor-management portal (React).

SKILLS

- **AI-Native** - Claude Code, Cursor, Claude Design, LLMs & agents, Devin AI, n8n, MCP Server creation, Figma (AI + Make), RAG, LangChain
- **Frontend** - React, Next.js, Vue.js, Solid.js, TypeScript, JavaScript, TailwindCSS, SCSS, AEM, Builder.io, Contentful
- **Backend & Data** - Node.js, Express, GraphQL, Supabase, Firebase, MongoDB, MySQL, AWS
- **Foundations** - C, C++, Java, Python, Golang, HTML, UI/UX fundamentals, Testing (Jest / JUnit), Agile, Git

PROJECTS

Stride Run Club Bengaluru Web App **Mar 2026 - Present**

- Created the club's **full event-ticketing platform solo, end-to-end** on Next.js + Supabase, built entirely with Claude Code.
- Grew it into Stride Run Club's main **web presence at 2,000+ monthly visitors**, owning, designing, building with no other engineers.

Links - Single Link, For All Your Link **Feb 2021 - Aug 2021**

- Developed a web application leveraging kzilla.xyz URL shortener to enable centralized management of multiple links via a single URL. Empowered **over 200 users to build their link portfolios at no cost**, integrating robust analytics such as view counts, clicks, and geographic data to provide actionable insights for each link. Embraced an open-source approach for this project.

EDUCATION

SRM INSTITUTE OF SCIENCE AND TECHNOLOGY **Chennai, India**
Jun 2019 - Jun 2023
Bachelor of Technology, Computer Science Engineering with spl. in AI & ML

- Achieved SRMJEEE 2019 Scholarship; Maintained a 9.74/10 GPA; Honored with the **“Best Performer Award”** for outstanding academic excellence.
- Directed and managed the Techno-Management fest, successfully increasing footfall by over 50%; **Led the Microsoft and Mozilla campus clubs**, driving engagement and fostering a collaborative learning environment for college students.
